E-mail: register@petrochemconclave.com | Website: www.petrochemconclave.com
We are pleased to announce that IndianOil is hosting a “Petrochemical Conclave” at Hotel The Leela Kempinski, Gurgaon, Delhi (NCR), India on the 16th of March, 2012. The theme of the Conclave is “Petrochemicals – Growth Opportunities and Challenges in Indian Sub Continent”.

The Conclave will be a platform for meaningful exchange of ideas between the global leaders in the petrochemical industry and will also showcase to the world the investment / growth opportunities available in India and the sub-continent. Leading players across the globe in the entire petrochemical value chain comprising producers, technology licensors, downstream industry, logistics providers etc. are expected to participate.

The consumption of Petrochemicals is reckoned to be a key indicator of economic growth. The economies of the Indian sub-continent, led by India, are on a high growth path; coupled with this is the low per capita consumption of Petrochemicals in the region offering scope for expansion.

Currently, the world economy is at the cross roads of turbulent times. It requires market leaders, CEOs and Senior Executives to converge on a common platform for sharing experiences and to engage in consultations to explore ways of overcoming the challenges that the Industry is faced with. IndianOil Petrochemical Conclave aims to provide a forum for exchange of knowledge and learnings.

We are privileged to invite you for the Petrochemical Conclave and share your views and experiences with us. We look forward to your esteemed presence and participation at the Conclave.
